

Automotive Track Day Ground Rules

- Everyone entering the track must sign a waiver. Drivers will be given a wristband to be worn at all times while you are on track.
- You must be 18 years of age or older with a valid driver's license to participate in our Automotive Track Days.
- The car should be a licensed or registered street type vehicle. This is not a race event. Therefore, race cars are not allowed. There is to be no side-by-side or nose-to-tail drafting at any time.
- Anyone who has consumed alcoholic beverages on the day of the event is not allowed to participate. No illegal drugs are allowed on the track premises.
- Drivers must attend the Novice Orientation Program in the morning of the event or have other acceptable high speed driving experience before going on track.
- Drivers must know and obey the conventional sports car racing flags and hand signals discussed at the drivers' meeting and/or Novice Orientation Classroom session.
- Safety is our main concern. Therefore, complete car control is required at all times. Anyone driving in a reckless manner will be warned once and then may be barred from further participation.
- No passing is allowed except on the straights. Please watch your mirrors and cooperate with the car passing you by pointing to the side on which you want them to pass. All passing will be done on the right.
- Drivers and instructors must wear approved Snell helmets with a SA, K or M 2010 or newer rating. They must be proper fitting and securely attached at all times while on track. Helmet rentals are available at the track. If you have an open car, you must have helmet shields or goggles (glasses or sunglasses will not suffice).
- For safety reasons, drivers must wear long pants, long sleeved shirts and closed toed shoes while on track. Driver suits, socks, shoes and gloves of flame resistant materials are highly recommended but not required.
- If more than one person is in a car on a hot track, one must be a Blackhawk Farms instructor. No more than two persons are allowed in a car on a hot track.
- All drivers need to check in at the Pit Stop first before proceeding to TECH.
- Only the driver registered to a given vehicle may drive it on a hot track.
- Children must be under the direct supervision of an adult at all times.
- Please humanely leash or have your pets enclosed at all times.
- Our paddock speed limit is 15MPH.

DRIVERS NOTE:

- Convertibles require a rollover protection system. Please call us at 815-389-2000 to discuss your specific convertible.
- Vehicles with reactive safety systems must be operated with complete driver control.

Entry Form – BFR Track Day Wednesday’s 2018

Please check one: [] April 18th [] May 16th [] June 13th [] July 11th

[] August 15th [] September 19th [] October 17th

TECH SHEET

Please bring this completed sheet with you to the track.

Event Date:_____ Driver Name:_____

Car Make:_____ Model:_____ Year:_____ Color:_____ Group:_____

SELF-CERTIFIED SAFETY CHECK LIST

You, or a trusted mechanic, must certify that the following items have been checked and corrected if found unsatisfactory.

Issuance of a tech sticker does not signify that your car is safe to operate on the track. It is your responsibility for the condition of the car.

REQUIRED SAFETY ITEMS

___ **HELMET** - A Snell helmet with a SA, K or M 2010 or newer rating. Helmet rentals are available at the track.

___ **LONG SLEEVES, LONG PANTS & CLOSED TOED SHOES** in good condition are required, preferably of a natural material.

___ **SEATBELT** belts must be in good condition.

___ **A ROLL BAR** is required in all open cars. A car with a removable hardtop is an open car. Targa or T-top cars with solid roof panels fixed in place are closed cars.

BRAKES are the weakest link when a car is taken on the track. Please note that new brake pads can be severely worn in a day and brake fluid can boil unless fresh and at least DOT 3 grade.

___ **BRAKE PADS**

___ **BRAKE FLUID**

___ **BRAKE FLUID RESERVOIR** is full and the fluid is clear.

___ **BRAKE PEDAL**

TIRE, WHEELS, FRONT END, SUSPENSION & BODY

___ **TIRES** that are worn out, corded or deeply cut may not be run. Decrease 5-6# from normal tire pressures.

___ **WHEELS** Remove decorative hubcaps. Check bolt pattern carefully for cracks.

___ **LUG NUTS** must be present and torqued properly.

___ **OPERATING BRAKE LIGHT**

___ **TRUNK EMPTY, SPARE REMOVED.** No loose gear inside cabin.

ENGINE & DRIVE TRAIN

___ **ENGINE & DRIVE TRAIN** must be in good condition. Check all fluid levels, belts, & hoses. Tighten all caps. No leaks are allowed. Be sure radiator is full and clean inside and out.

___ **BATTERY** must be secure. Hot battery lead must be insulated.

REACTIVE SAFETY SYSTEM

_____ All vehicles with reactive safety systems must be operated with complete driver control.

SELF-CERTIFICATION

Driver Signature: _____

TECH SHEET -CONTINUED

You must get off track immediately if you encounter:

- 1. Brake failure
- 2. Leaking gas, oil or other fluids.
- 3. Mechanical problem hampering car control or safety.

TO BE COMPLETED BY THE TRACK TECH INSPECTOR ONLY

Inspected by: _____

Driver's Name _____

Assigned Car Number: _____ Group _____

Car Make _____ Model _____ Year _____ Color _____

_____ REJECTED: (reason) _____

Correct & present for re-inspection.

Re-inspected & Approved by: _____
